

# Record a program on X1

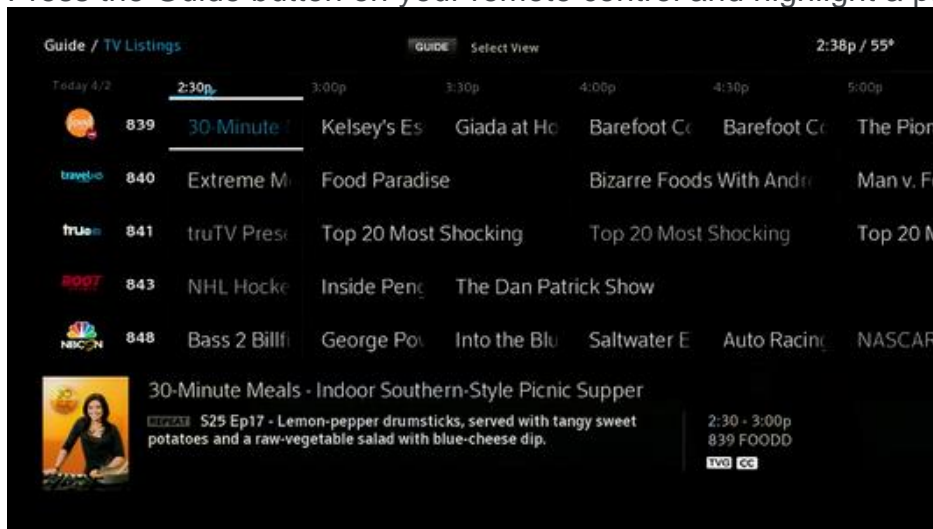

Use these steps to record and schedule a program using your Xfinity X1 TV Box.

Notes:

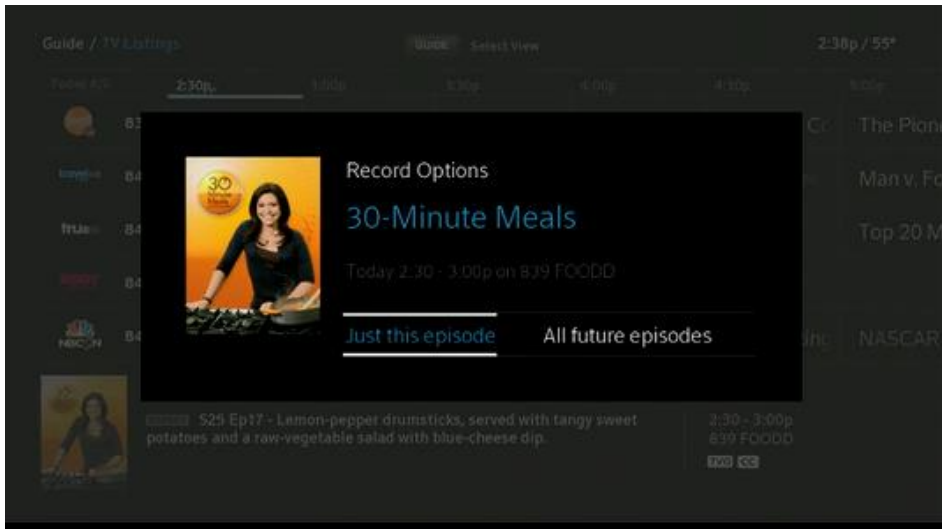

- Up to six programs can be recorded at one time with a standard X1 DVR. See [X1 DVR Services Overview](#) for details.
- The following functionality may not be available for Xfinity free live streaming channels:
  - Fast-forward
  - Rewind
  - Recording features
- When paused, Xfinity free live streaming channels may resume to the current moment of programming, rather than resuming from the pause point.

## Record a program

1. Press the Guide button on your remote control and highlight a program.

2. Select the Record button on the remote control or select the Record option on the program's info panel.

3. Select Just this episode and the recording will be set.
