Step 2: Swipe until you hear connect and double tap. It will take to verify by logging in the way you signed up for Be My Eyes. Once you have finished, it will take you back to the page.

Step 3: Swipe until you hear the back button and double tap.

(For sighted use, scroll down until you see Be My Eyes and tap it. You'll then hit the connect button. This will redirect you to Be My Eyes, where you will verify your account. After

you have successfully verified your account, it will redirect you back to the Meta Ai app. Hit the back arrow.)

Detailed Response

Step 1: swipe until you hear detailed response and double tap.

Step 2: Swipe until you hear enable detailed response then double tap.

Step 3: Once you are finished, swipe until you hear the back button and then double tap.

(For sighted use scroll to the bottom of the list until you see detailed response. Click it and toggle on the detailed response.)

Meta Glasses Commands

Incoming/Outing calls:

To answer an incoming call say, “Meta Answer”. You can also double tap fast on the right arm of the glasses right after the engraved RayBan sign.

To make an outgoing call with someone in your contacts say “Hey Meta call (insert name)”

***If the person is not in your contacts, you will need to have to ask Siri to call by saying “Siri call (insert name or number)”**

To end a call with Meta, double tap fast on the right arm of the glasses behind the RayBan sign.

Using Meta

To ask Meta to do anything, you must start by saying “hey Meta”

Conversation Focus

Conversation focus allows you to hear someone clearer that you are conversating with. Simply say “Hey Meta, start conversation focus” to end it simply say “Hey Meta, stop conversation focus

Live AI:

Live AI allows you to use Meta constantly without having to constantly use the phrase “hey Meta”

To start live AI simply say “hey Meta start live AI”

To end the session say “stop live AI.”

Knowing Your Surrounding

To find out what's around you say "hey Meta what's in front of me."

Reading

To read the full document, you must say "hey Meta, look and read"

To get a general idea of what is on the flyer or page say "hey Meta what is this"

Siri iPhone commands for iPhones 13 and higher.

Siri commands for answering and hanging up the phone:

If you would like to call someone without the Meta Glasses simply say "Hey Siri call (insert name)."

If you want to call someone on speaker say, "hey Siri, call (insert name) on speaker".

To hang up say "Siri, hang up"
